- HomePlug-AV
- Up to 1920x1080
- Support QoS
- Powerline PLC

Allows transmit HD Video anywhere in your home using existing Power lines. This system consists of a receiver and a transmitter that deliver H.264 HD video and audio from Set Top Boxes, Blu-ray™ disc players, video game consoles etc. to compatible HDTV displays located near power outlets. It is easily connected to your HDTV via an HDMI™ cable while your A/V equipment is connected directly to the transmitter.

Features:

- H.264 compression technology & Incorporates HDMI™ technology
- Supports up to 1920 x 1080 @60i/50i/23.98p/24p resolution
- Incorporates Home Plug-AV PLC technology with 200 Mbps PHY rate
- Supports optimal QoS for video streaming
- Supports HDMI interface and Power-line
- Supports video source remote control
- Back channel to support remote IR control for original video player

Transmitter & Receiver Audio

- Resolution: 16 bits
- Sampling rate: 48 kHz

System

Video Compression is H.264 Level 4

Audio Compression is MP2 (MPEG1 Layer2)
Incorporates HDMI™ and HDCP technologies
Transmission PLC supports HomePlug-AV up to 200 Mbps
Transmission distance is up to 300 feet (100 meters)
Video streaming supports one TX to multiple Rxs
QoS is proprietary network bandwidth management

Transmitter Input/Output

AC Power Connector x 1
HDMI Input Connector x 1
HDMI Output Connector x 1
IR Blaster x 1

Receiver Input/Output

AC Power Connector x 1
HDMI Output Connector x 1
IR Sensor x 1
USB X 1 Optional (For SW Update)
